

Did You Take These Trades?

WOW -- WHAT A BIG TWO DAYS!!! Two Straight Days Of \$7,500 Gains!

In a weekend newsletter, we said:

*"The odds of seeing a traditional canslim IBD 100 bull run are a long way off. That all being said however in between that time there will be **names that will take off like rockets**. Some of those names are past leaders, some of those past leaders could rally up to prior resistance levels and **could make your whole year** all the while never even getting close to triggering a traditional CANSLIM entry point. Speaking of leadership in the IBD sense? There is none. That said, at some point while waiting for the next crop of leadership you still gotta make money in the meantime."*

We identified eight stocks that were ready to "take off like rockets" and alerted our paying subscribers to them in their Sunday newsletter. **They all triggered right at the open Monday** and wow, did they indeed rocket higher! As a result, **our portfolio increased over \$7,500 in one day** as the market had its best rally since 1933!

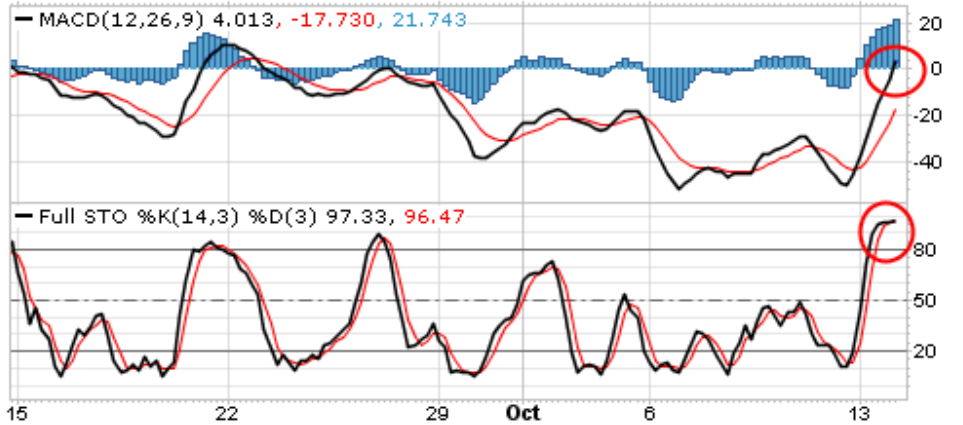

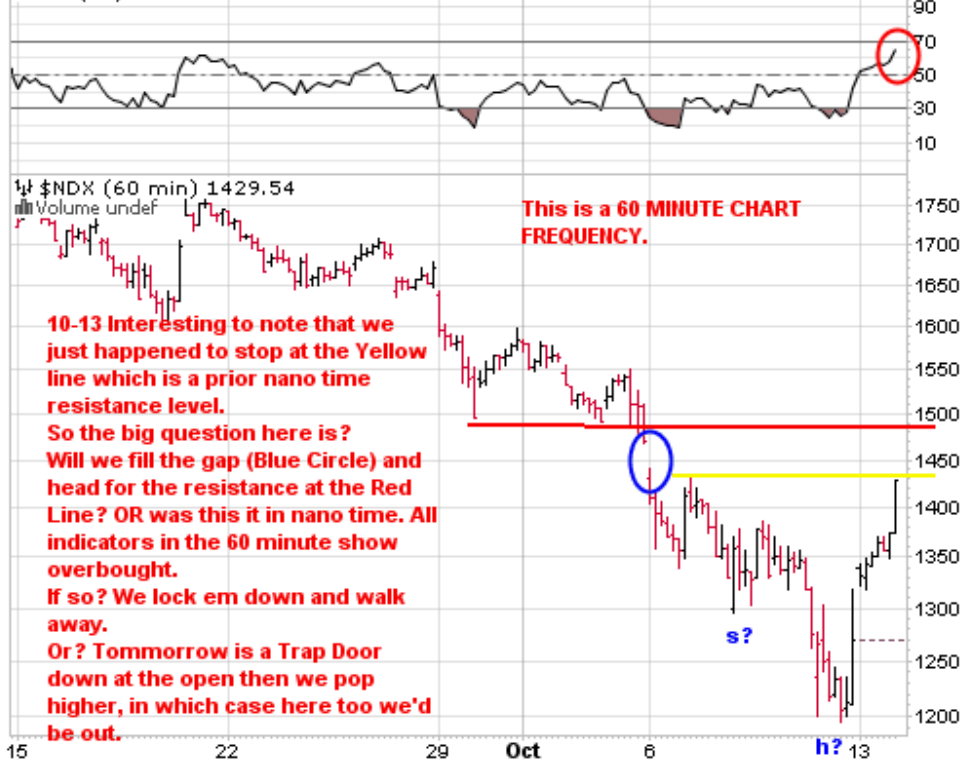

And Tuesday morning, the market and **each of our stocks gapped up again**. However, we issued an alert to our paying subscribers prior to the market opening with the following charts of the market telling us that **the market was close to running into resistance**. As a result, we advised our subscribers to take advantage of the gap up gains to **lock in significant two-day profits**. With the gap up, **we enjoyed a second straight day of gains close to \$7,500!**
