

Did You Take This Trade? DRYS

One Good Trade A Week Is All It Takes!

Earlier today, our paying [subscribers](#) locked in a 21% in 3 days with DRYS. Just one trade like this a week is all it takes to get your portfolio outperforming most other investors and professional Wall Street managers. Here's how:

SUBSCRIBERS ALERTED TO DRYS AS AN IDEAL LONG SIDE SET-UP IN THE WATCH LIST IN OUR WEEKEND NEWSLETTER

DRYS's set-up made our paid [subscriber](#) only watch list because it had formed a bullish Pullback Off Highs pattern. Click [here](#) to learn more about the Pullback Off Highs pattern.

DRYS TRIGGERS A TRADE BY BREAKING ABOVE THE PINK LINE

When [DRYS](#) triggered a trade by breaking above the pink pullback off highs line, we issued a [Trade Trigger email alert](#) to our paying [subscribers](#).

A FEW DAYS LATER, OUR SUBSCRIBERS LOCKED IN AN 21% GAIN!

We sent a Locking In Gains email alert to our paying [subscribers](#) to lock in their gains - a gain of 21% in just 3 days!

In today's market, success isn't about trying to hit a grand slam or score on a hail mary pass. Instead, it's all about hitting singles and making first downs and doing it over and over again. That's how to get ahead in today's market.

The pullback in the market has created outstanding long-side set-ups. Now's your chance to take advantage and buy stocks at ideal buy points with minimal risk. The watch list available to our paying subscribers is full of them!

And for those of you that like to buy stocks at bargain prices, we've added a section to our watch list called "Single Digit Midgets" -- stocks that are priced below \$10 that have formed the same patterns we look for in other stocks. Here's how a couple of them have done since we featured them this weekend:
